

On Call Tech Solutions

Professional IT Support for Small Businesses
throughout the Hudson Valley

➔ Technology should move your business forward.

Small businesses depend on technology every day - email, Wi-Fi, computers, cloud files, security, backups, printers, and the systems that keep work moving. On Call Tech Solutions helps keep that technology practical, reliable, and business-focused - without unnecessary jargon or overcomplicated solutions.

How We Help

Microsoft 365 Support

Outlook, email, OneDrive, Teams, MFA, file sharing, setup guidance.

Business Wi-Fi & Networking

Coverage issues, routers, switches, slow connections, guest networks, reliability.

Cybersecurity Basics

Phishing prevention, password practices, account security, MFA, risk reduction.

Backup & Recovery Planning

File protection, cloud backup guidance, recovery options, business continuity basics.

Computer & Device Support

Windows PCs, laptops, printers, software issues, performance problems, troubleshooting.

Technology Consulting

Plain-English guidance before buying systems, changing services, or making IT decisions.

Built for Small Businesses

You do not need a large IT department to make smarter technology decisions. OCTSNY brings professional, enterprise-inspired experience to local small businesses that need dependable support, clearer systems, and practical advice. The goal is simple: make sure the technology your business depends on is helping you move forward - not slowing you down.
